

Global Software Applications
/ SurferQuest

SurferQuest Free Internet Cafe Software is a full suite of programs to turn normal PC's into locked down, access number accessible and self-contained \$\$ generating PC's.

Internet Cafe / Coffee Shop Free to Use:

When starting an Internet Cafe expenses are high and you don't have much money to burn. To help you start making money quickly SurferQuest wants to provide you with software that will keep your computers running and your customers secure, for free. All of the hosting and software cost involved in computer security (maintenance, anti-virus, anti-hack, anti-malware) and SurferQuest modules like lock-down, payment portal and revenue reporting, are provided free of cost.

What is included:

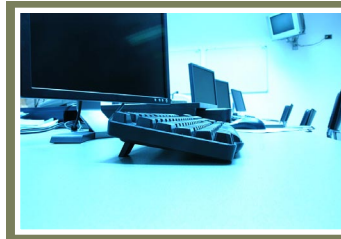

- SQ Lite with Prepaid Card Access Portal
- 30-Day install Support, e-mail support after
- Hosting and prepaid card verification
- Updates, new virus definitions, renewals
- Virtual Head Quarters

What you do not need:

- Server or PC to control the public access PC's
- Any other security software (example: anti-virus)

What you need to provide:

- Computer, power and internet.

Free to use
Internet Cafe Software Suite
Revenue is 100% Yours!

SurferQuest turns each Windows XP or Vista machine into a self-contained computer. The Prepaid Access screen is always up. Users can enter their access number and the system opens up with limited admin rights. Your customer can run applications, play a PC game, download Music, install, burn, copy, surf the WWW, e-mail, anything they do on their home PC. When their purchased time is up, the system cleans itself in preparation for the next user. This means no user data of any kind, no disc clutter and no objectionable, personal or private content remains on the computer. Most importantly, you can offer SurferQuest 24/7.

The software is offered only as a download and can be used for free. Free Updates stop after 3 Yrs.

User Applications (Installed with Bundles)

The bundles have a default set of user applications installed. This set covers all necessary programs for basic computer usage. Open Office with Text, Spreadsheet, Design and Drawing, Internet Explorer, Quick Time, iTunes, Windows Media Player, PDF Reader, Flash and Shockwave plug-in, Messengers from ICQ, AOL, MSN and Yahoo. The contents of this package may change from time to time. Ask for the latest compilation.

Virtual HQ

In the Virtual Head Quarters you can set the rates and increments. You can also remotely view when the last time was a computer checked in. This usually indicates if a PC is up and running or not. You can view the usage of your systems, upload logo's, ads and customize the appearance of your application.
