## Print Boarding Pass Application

Our Print Boarding Pass Application reflects a user friendly portal with all airlines, links to their homepages and phone numbers. Select the Boarding Pass tab and your guest is up and running. You can find a demonstration on this web page: <http://www.surferquest.com/airlines/airlines.asp>

This application is also available as a locked-down stand-alone application for in your lobby. Users will then only be allowed to use the Print Boarding Pass Application and are restricted from desktop, web and all windows files.

Check out [www.flighttimetv.com](http://www.flighttimetv.com) for live broadcasting of flight information of your nearest airport (s) on your Guest TV Network or Digital Signage screens.

### Flight Status Search Tool

A convenient little application which travelers can use to check if their departing flight is on-time, has a delay or is cancelled. The huge database covers all the arriving and departing flights of all the airports in the world.

This application is an add-on to the SurferQuest Lite and Full Throttle kiosk software and can be activated straight from the SurferQuest start screen or the desktop.

by flight | by airport

### Pay-Per-Print

Whether you charge or not for offering the convenience of a privacy protected business center computer to your guests, you may want to consider getting the paper, ink and depreciation cost of the printer covered.

Pay-Per-Print allows you to do so. Every time when a guest issues a print job, he will be required to pay the cost per print that you have set.

SurferQuest Pay-Per-Print is an add-on to the SurferQuest software and can discriminate between a B/W and Color Printer. In other words, if you have 2 printers attached to the network, like a B/W and a Color Printer, you can set 2 different rates, each triggered if the appropriate printer is chosen.

Check out [www.flighttimetv.com](http://www.flighttimetv.com) for live broadcasting of flight information of your nearest airport (s) on your Guest TV Network or Digital Signage screens.
